SOMETIMES.
YOU CAN BUTTON
WHEN YOU'RE COLD

ALWAYS BUTTON WHEN
STANDING OR WALKING
UNBOTTON WHEN SITTING

NEVER

DOUBLE BREASTED SUIT

Button the internal anchor button first, pull the flap over, button the second button.

No matter how many buttons your jacket has, always leave the bottom button unfastened, just like a single-breasted suit—but button the bottom interior button, so the jacket stays closed and lays flat.

Generally speaking, double-breasted suits look better when they're buttoned.

- If wearing a waistcoat or vest, do not wear a tie bar
- Remove the label on the sleeve.
- Open the stay stitching on the pockets.
- Remove the stay stitching on the vent.
